Safety Statement

“Safety involves all the team”

Green Generation Limited, the operator of an Anaerobic Digester in Nurney, Co. Kildare is committed to providing, insofar as it is reasonably practicable, a safe and healthy workplace for employees and visitors alike and ensuring that all relevant statutory and Legislative requirements are complied with.

Green Generation Limited is committed to the prevention of accidents and injuries in the workplace and to the adoption of the highest Health & Safety standards.

Green Generation Limited will ensure that, insofar as is reasonably practicable, the following are provided:

- Safe places of work together with safe means of access and egress in conjunction with safe equipment and work systems.
- Appropriate information, instruction, training and supervision incorporating the provision of suitable protective clothing and equipment.
- Emergency plans which will be subject to periodic revision and the designation of emergency responsibilities to appropriate and trained staff.
-

The Green Generation Limited Safety Policy has to be followed by all staff members, contractors on site and visitors to the premises. We commit to maintaining an awareness of and provide timely responses to any community concerns which arise.

The Company insists on the cooperation of all employees in the organisation for the implementation of this Safety Policy.

All employees are invited and encouraged to submit suggestions and ideas for improvement of the Safety Policy.

The Safety Statement, Safety Policy and annual Safety record will be reviewed for effectiveness each year at the Management Review meeting.
